

# FEATURES BENEFITS

THE RE-SYSTEMS GROUP

## TURBO-SEAL

Feature		Benefit
<b>Adhesive</b>	Adhesive even in wet conditions. Adhesive to PVC, metals and other materials.	Maintains a tight bond to the substrate and limits issues with detailing.
<b>Flexible</b>	Turbo-Seal never completely cures. Durable to seismic movement, vibration, thermal expansion/contraction. No gassing off issues or pinholing during application.	Waterproofing membrane responds to movement like skin maintaining the integrity of the waterproofing envelope.
<b>Durable</b>	Chemically resistant, resistant to salt water conditions. Resistant to freeze/thaw cycling and wet/dry cycling. Non-flammable.	Waterproofing membrane is effective and long lasting in adverse conditions.
<b>Easy to Apply</b>	Cold applied, adheres to green concrete. No chipping of the surface, primer is unnecessary.	Cost effective, reduce labor, save time, fewer mistakes.
<b>Self Healing</b>	Turbo-Seal self heals even under hydrostatic pressure.	Limit damage during the construction process. Limit worry about nails or careless workers.
<b>Monolithic</b>	Turbo-Seal is liquid applied, creating a seamless waterproofing envelope. No	No seams for water to migrate under. Waterproofing encapsulates entire structure.
<b>Environmentally Friendly</b>	Over 45% recycled tire rubber, no VOCs, non-toxic. Safe to apply.	Earn LEED points. Environmentally responsible.
<b>Easily Repaired</b>	Use Turbo-Seal as an injection grout to repair areas as necessary.	Turbo-Seal is an injectable waterproofing membrane.
<b>Warranty</b>	Optional 20 Year Warranty	Peace of mind.
